

"When you're changing a girl's life, it's not just that life. You start to affect a family, a community, a nation."

Oprah Winfrey

Change the outcome of one girl's life

CCSG is a school where girls from low-income families in the 5th-8th grades are challenged to dream, plan, and transform goals into realities. Girls transition into young women who appreciate the power of the individual to impact her family, community, city, state, nation and world.

They will break the cycle of poverty that plagues our nation's cities. They will close the global achievement gap. They will live their dreams in this great country that we call America.

CCSG admits scholars

of any race, color and national or ethnic origin to all the rights, privileges, programs, and activities generally accorded or made available to scholars at our school and does not discriminate on the basis of race, color, and national or ethnic origin in the administration of our educational policies, admission policies, scholarship and loan program and athletic and other school-administered programs.

A promise that our scholars will

- * **graduate** with confidence and competence
- * **experience** the joy of learning
- * **be curious**, alert, observant, resourceful, and persistent
- * **lead** their generation into a brighter tomorrow
- * **be strong** in character and humble in spirit
- * **be committed** to justice, peace, and truth

when I grow up, I want to be a...

responsible and engaged citizen

world activist

leader

painter

poet

scientist

TEACHER

global thinker

loving mother

successful business woman

Your support will help me.

Why Charlotte Community School for Girls

Charlotte Community School for Girls is a family. We attend to each girl's needs and we celebrate differences. Scholars learn to think, treat each other with respect, to appreciate the benefits of cooperation, and to balance the needs of the scholar with those of the community.

We provide a demanding environment for learning. While learning the fundamentals in English, math, history, science, and Spanish, our scholars engage in class discussions, experiments, research projects, presentations, and performances.

Each child has her own laptop and develops confidence and competence in the use of technology.

Enrichment classes in art, music, drama, technology, world topics, special topics, physical education, and community service complete each girl's learning experience.

Our Model

Extended school day and year

Rigorous curriculum exceeding the NC Standard Course of Study

Commitment to provide support for graduates through high school and college

Student participation in community service projects

Parent participation in scholar learning and empowerment programs

Hands-on learning opportunities

Discovery of personal interests
