

# FALASHA

## NORTH AFRICA'S BLACK JEWS OF ETHIOPIA & EGYPT

### Ancient Egypt's Lost Civilization

When we think of Jew's, Hebrew's or Israelites, we only think of the European white Jews and the Holocaust.

There is still another story to tell that has for centuries been ignored, or should I say forgotten even better, smitten from our History Books.

The story, plight & saga of our Ancestors of Africa of old and present and of whom are at risk of complete extinction today. These are the Africans of my & maybe your fore-fathers, least we dare to forget. Africa when first spoken of in the Bible & the Torah from the beginning of our human documented history, gave us a designated location calling it, The Garden of Eden housed with-in Ethiopia (King James Version Bible) Genesis 2:13.

Believe it or not, those ancient early descendents of old, were also called Nubians, or Cushites, from the land of Cush. They were also called Semites, because they were the descendants of Japheth, one of the 3 sons of Noah. Later on in our research we find them en- slaved in Egypt

(Exodus) where some of the Falasha still live in Aswaan Egypt today. Upon my visit I went to visit my long lost cousin, Imman Abraham who is from the paternal side of the family. Imman gave me a brief history of who they are today, as opposed to who they use to be. "We are practicing Islamic culture & religion, but we know that we were Orthodox Christian-Jews, forced to call our selves, Moslems. We still know who we are, and whose we are. E are still The Lost Tribe of Israel. (Messianic) We are the Black Jews of Ethiopia, from an Orthodox religious back ground. We are those still in exile from Ancient Persia, Egypt, & today Sudan". Today we know that there were more than 2,000,000 of us Black Jews (Falasha) in Ethiopia, and today there are only approximately 25,000 known living Falasha left. Some Ethiopians were rescued by the Wings of Eagles European Jews in Isreal, of whom we are grateful. We speak many languages such as; Ge'ez, Amharic, Tigrinyian, & Oromo. "Good Morning" (ENDEMENADARACHEW) ETHIOPIAN AMHERIC (language)
