

HBCU Testing Tour

The HIV rate among African Americans is **10 times higher** than among Caucasians.

**In recognition of Black HIV/AIDS Awareness Day (February 7, 2015),
during February 4-February 7)**

Carlinas CARE Partnership's Mobile Testing Unit will be touring to some of North Carolina's finest Historically Black Colleges and Universities to:

Increase awareness to make a difference in our community

Provide free and confidential testing

Offer free counseling and other giveaways
