BLACK LIVES MATTER CHARLOTTE

Inform. Discuss. Decide. Act.

A recent study ranked Charlotte as last in the country for economic upward mobility, especially for black people born here. Nationally, the Black Lives Matter movement has gained unprecedented media attention and the Post Foundation wants to use that momentum to highlight local issues impacting blacks in Charlotte. *The Charlotte Post* and the Charlotte Post Foundation are hosting a series of community conversations--that will lead to meaningful actions and outcomes--around the issues that are affecting black lives.
