I am up for the Challenge!

I am excited about running again for the North

Carolina General Assembly. I have worked hard on multiple issues that affect our communities. I would like to finish the work I started on in these specific areas: Mental Health, Minimum Wage Increase, Public Education, Health, Women and Families Economic Issues, and Environmental Issues. I know there is more work to do, especially in the area of job growth and attracting good paying jobs that we desperately need in North Carolina. As well as, the need to closely examine poverty level increases in our state. I am committed to continuing to be the voice for the citizens of the 106th district in the North Carolina General Assembly.

I am up for the challenge; I need you with me in 2016.

Thank You,

Rep. Carla D. Cunningham
