Dear Steve,

We are so excited to be a part of the team bringing The Space Camp Museum to Charlotte, NC. Ms. Brenda Robinson (The First African American US Navy Pilot) has worked tirelessly to continue to expose Charlotte and the surrounding areas to very high level science and technology professions, particularly in the areas of aviation and now in aeronautics.

This event is priced right to allow access for ALL at \$5 for children K-12 and parents free. And it just gets better...

**Wanna be an official eVolunteer Engineer?** We invite you to spend the day (either Friday or Saturday - OR BOTH) as an eVolunteer Engineer!!! *Wait, don't worry, you won't have to learn physics or science - (smile) you just have to be willing to serve and support the excited children coming through the event over the weekend. (18 years and older for eVolunteer Engineers - interns welcome!)*

eVolunteer Engineers are asked to commit to at least one full day so that they will be able to be trained and familiarized with the display. The eVolunteer Engineers will have the fantastic opportunity to share this amazing technology with an awesome group of kids coming in AND as a bonus, they will receive an **eCircle Volunteer Engineer Certificate in support of The Traveling Space Museum** sponsored by **Aviation Camps of the Carolinas** **AND you will be paid \$60/day AND \$100 will be awarded to the non-profit of YOUR Choice!**

Contact: **Brian K. McNeill (919) 345-4893** or email: [Brian@verypersonalsalescoaching.com](mailto:Brian@verypersonalsalescoaching.com) to register as an eVolunteer Engineer.

**Just want to be a Space Camper?** Its ok! [Register here](#), bring your kids out out. Remember...**Parents are FREE!**
