Phillip O. Berry Academy of Technology Lenovo Scholar Fan Favorite

Message

Good Morning

Your support in voting for our student Tom Nguyen's mobile application is thoroughly appreciated.

This is the second year in a row that Tom Nguyen has created a mobile application as part of the Lenovo Scholars and qualified as one of the top six in the nation. We are the only school in North Carolina to have achieved this honor.

Your help is needed in helping his app "IMHere" become the 2016 Fan Favorite.

Please share with your colleagues and vote today.

Vote 2016 Winners » LenovoScholars.com
lenovoscholars.com

VOTING OPEN THROUGH JULY 19

The public can explore the six apps and vote for their "Fan Favorite" through July 19. The winning app will be announced during the NAF Next Conference in Orlando, FL in July. At the conference, each winning Student Team will have a chance to present their app, and the Fan Favorite winner will receive recognition on stage for their accomplishments.

Want to learn more about our 2016 winners before making your Fan Favorite choice? Click below for more info on the apps and students who built them.

Thank you for your support.
