### What is Supported Employment?

Supported Employment is a behavioral health placement service that helps individuals, choose, get, and keep a job.

### What We Provide:

- Individualized assistance with choosing, obtaining and keeping a job.
- Community based career planning and job search.
- Resume Assistance
- Assistance with interview skills.

### Why Participate in Supported Employment?

When people feel good about having a job, they often see themselves in a more positive way. Work gives people structure and routines. Having an income gives them more choices about what to buy and where to live.

Support starts before the job and we continue to support you while you are employed.

Let us help you find the right job!
