What makes a successful teacher?

Teaching is one of the most complicated jobs today. It demands enthusiasm, a caring attitude, a love of learning, and a desire to make a difference in the lives of young people. If you ask a student what makes him or her successful in school, you probably won't hear about some great new textbook or the newest technology to supplement instruction. Most likely you will hear something like, "It was all Mr. Davis. He pushed me and never gave up on me."
