Global warming is one of the greatest existential threats our planet has ever faced. As the Director of the Earth Systems Science Center at Penn State University, Dr. Mann has been a leading force in climate change research. He is the award winning author of more than 200 peer-reviewed publications and has written four books related to the climate change field, including *Dire Predictions*, *Understanding Climate Change*, *The Hockey Stick and the Climate Wars: Dispatches from the Front Lines*, and most recently, *The Madhouse Effect*. This is a unique opportunity to learn from one of the world’s foremost climate change experts, and to understand where our planet is headed and the steps we need to take to avert a global catastrophe.
