

# Training & Employment:

Provide students who are chronically underemployed or unemployed with skills in traditional and non traditional trades that will enable them to obtain permanent employment and compete for advancement in the job market. These opportunities give the students the ability to become and remain financially independent.

The curriculum for the Beatties Ford Road Vocational Rehabilitation Center is designed to provide students who are unemployed, underemployed, living at or below the poverty level and re entering the community from incarceration with skills in traditional and non traditional trades. These skills will enable them to obtain permanent employment and compete for advancement in the job market.

Any man/woman who is at least 18 years of age and is drug free is eligible to enroll in this six month program. It is important that students become introduced/reacquainted with a regular schedule, therefore hours are comparable to normal working hours. The training skills offered allows students to have choices in their training and career opportunities. These opportunities the ability to become and remain financially independent.
