CSL FOUNDRY

THE CITY STARTUP LABS' CENTER OF EXCELLENCE IS BRINGING A NEW ENTREPRENEURSHIP TRAINING PROGRAM TO CHARLOTTE

Since 2014, City Startup Labs has been providing award-winning entrepreneurial education and support to young black men and now African American millennials in a robust, rigorous, and comprehensive program. It's the only one of its type in Charlotte. And now CSL is bringing the same method to the formerly incarcerated.

Usually reentry programs focus on meeting the immediate needs of this population including employment. Yet for returning citizens, access to any work, much less livable wage-paying jobs can be especially challenging. This is why entrepreneurship makes for a viable option to standard employment, while at the same time providing needed goods and services for reentry communities.

Pilot starts in June 2018
