No matter who they pick tonight

Steve -

We launched our campaign almost two years ago. We never could have imagined that our opponent's campaign would scheme up the biggest case of election fraud in recent American history — making our race the last undecided house race of 2018.

Now with today's Republican primary underway, resolution is almost within sight.

We should know our opponent soon after polls close, and that means we need to be ready to hit the ground running tomorrow.

No matter who they pick, we know the special interests and DC Republican insiders are likely going to flood our district with millions in outside money. They want to try to buy this seat and stop the people from flipping this district.

So with just hours left until the polls close, I need to ask for your help once more. This could be our last chance to prepare before the general election starts.

[Will you make a \\$3 donation right now to make sure we're ready to hit the ground running as soon as we know our opponent?](#)

Thank you for having my back. I couldn't do this without you.

-Dan
