*A reading program used at 10 CMS schools this past year has helped many third graders improve their reading proficiency.*

"I had my second session last week and it was SO rewarding. I can already sense a shift in the behavior of one of the children I'm working with and look forward to continuing to develop the relationship to help foster his development."

*Thank you*  
for your dedication to  
early literacy.

"I can really see how the  
students are growing  
with this program, it is  
AMAZING!"

"The interaction between our sweet families and dedicated teachers on Family Literacy Night was powerful to be a part of. I loved seeing how our community came together to support the love of literacy at our school."

*Happy Holidays*
