Hey SJ!

*I know it's been a while since I've been at TMBF or seen you. Happy New Year! I hope you and your family are doing well.*

Best,

Nakisa

### Start a FREE Girls Who Code Club Today!

Girls Who Code (GWC) brings free computer science learning opportunities to our community. **Girls Who Code Clubs** are **FREE** after-school programs for **6th-12th grade girls** to join a sisterhood of supportive peers and role models and use computer science to change the world. Participants not only learn hard coding skills and computational thinking, but they'll also learn project management skills, collaboration, bravery, resilience, how to positively impact their community, and so much more.

When you start a GWC Club, you'll gain access to free resources, flexible plug and play curriculum, funding opportunities, ongoing support, alumni opportunities for your young learners, and more! There's no computer science experience needed to get started since GWC is there for you every step of the way.

Apply now with the quick 15 min **Clubs Application**.

Learn more about how to get started by joining the next live 30 min **webinar** or email **clubs@girlswhocode.com!**
