Dear Friends of Atrium Health,

Atrium Health remains committed to continuing to find innovative ways to address the specific needs of each community we are privileged to serve. During these unprecedented times, we are proud to lead the way in addressing and removing any barriers that may exist for members of underserved and minority communities to easily access screening and testing for coronavirus disease 2019 (COVID-19).

This week **we will continue our targeted Atrium Health Mobile Coronavirus Testing Centers in several additional locations in the Charlotte and Cabarrus areas** to screen and test for COVID-19. Community members will not need an appointment, and the screening and testing will be conducted on a walk-in basis. Atrium Health healthcare professionals will screen for COVID-19, and immediately conduct a test when the symptoms meet the testing criteria. Atrium Health will also assess other social determinants of health, including the ability to socially isolate and quarantine, and make connections to resources to address social needs. The specific location of future testing sites will be determined by emerging hot-spots identified by the latest data on COVID-19 positive cases in our community.
