Join us! A Call to Action to tackle education during COVID-19 with a focus on African American children who are failing across the country at alarming rates according to research and local data. These series of town hall forums are looking at how issues of equity and racial justice are playing out in the daily activities of schools and educators. This is an amazing professional opportunity if your school district has failing schools. There will be dynamic speakers to address:

- Achieving Educational Equity, Racial Equality and Social Justice through work of Systems Change
- How School Leadership can increase yearly, graduation rates, test scores, attendance and ensure school districts full accreditation
- Ensure every school district has a racial equity policy that yields positive results
- NC DPI Superintendent invited to ensure support for this Call to Action Initiative

EVERYONE IS INVITED TO THESE FORUMS WHO WORKS WITH AFRICAN AMERICAN STUDENTS AND FAMILIES!

Keith Sutton

Chair of Wake County
Schools Board of
Education
