President's Message

Hello Friends!

Teachers are the single most important school-based factor for student success. This year, more has been asked of them than ever before and they continue to rise to the occasion.

Teachers of Excellence will take on a special meaning during this year's celebration. It will no longer be about test scores or academic achievements. It will focus on recognizing those teachers in our community who have met enormous challenges head on and have continued to inspire students through creative approaches to teaching. It will be about honoring ALL teachers for their determination to carry on through adversity and uncertainty.

Onward!

Nominate A Teacher!

Nominate a CMS teacher today who demonstrated a love for the profession during an extremely challenging year. Nominations can be made by anyone in the community! Ten teachers will be selected to attend a virtual awards program May 25th!

Nominations are being accepted now through May 14th!

Ross Danis, Ed.D.
President/CEO
