Community Partners Focused on

Reading Recovery

As children head back to school, we celebrate the incredible organizations and partners that worked tirelessly this summer to support them and their families through various literacy efforts. We all have our work cut out for us this upcoming school year but thanks to these dedicated leaders, we can feel more confident about where we're headed together.

Our community must continue to align to help K-3 children recover from the impact of the pandemic on their reading and accelerate towards reading proficiency by third grade.

BY THE NUMBERS

IN THE NEWS

Did you catch our very own Dr. Munro Richardson on the [On The Margins](#) podcast last month? This podcast by the Center for Racial Equity in Education (CREED) is about capturing the often untold stories of educational equity in North Carolina. Check it out as he discusses closing gaps in reading

proficiency.
