Hello,

I hope you're doing well and I want to thank you for keeping up the communication from the Forum during this time. I hope this email reaches you in time to make it to the next announcement notification email. I have been wanting to share about this innovative community program on behalf of my client, Mecklenburg County Government.

PB Meck, Participatory Budgeting Program

Participatory Budgeting allows residents to pitch project ideas to address their most pressing community challenges. Mecklenburg County has allocated funding in the 2023 budget for each County District to implement community-generated project ideas. All project ideas must fit within a County service or resource (Park and Recreation, Criminal Justice, Economic Development, Affordable Housing, Environmental Protection, and Health and Human Services). The suggested budget for each project is \$125,000 or less. All submissions must come from residents of Mecklenburg County. All County residents can participate and submit as many ideas as desired. **Submit your project idea by February 4th to be included in the community wide vote!**

Use this link to Submit Your Project Idea: https://corexmszcrhc3k7p3lqp.qualtrics.com/jfe/form/SV_d75w7G23cG1Y2eW

Visit budget.mecknc.gov to learn more about Participatory Budgeting and view project examples.

Can you please share the above message? I've included a flyer as well.

Thank you!
