Explore the new ReadCharlotte.org

Our work at Read Charlotte continues to evolve to meet old and new challenges in improving children's reading.

We've recently redesigned our website to reflect the work we're doing today, the research that drives it, and the results so far. We hope you'll spend some time exploring the new [ReadCharlotte.org](https://readcharlotte.org)!

Ten evidence-based drivers of effective reading instruction

Read Charlotte Executive Director Munro Richardson has been following the reading research of Dr. Carol Connor and her colleagues since summer 2017. Over a 20-year period, this group of researchers conducted multiple experimental studies, the results of which were published in more than 30 peer-reviewed journal articles. Along the way, they made a number of important discoveries about effective reading instruction.

The insights from this body of research today informs Read Charlotte's work across our [three focus areas](#): PreK-3 classroom instruction, high-impact tutoring, and family empowerment.

[Click here](#) to learn about ten powerful, evidence-based drivers of effective PreK-3 reading instruction.

Reading Hero: Lee Whitlow

[Meet our latest Reading Hero](#), Lee Whitlow, who drives the Charlotte Hornets Book Bus and performs in its reading shows.

"His work to help get books into the hands of deserving children is one of his passions in life," said David Stogdill, manager of literacy programs for the Hornets.

If you know someone going above and beyond to help children succeed in reading, [submit a Reading Hero nomination](#)!
