Steve,

The United States is a democracy where the voter gets to choose which candidate shares their values and is advocating to fix the issues that they care about. **Tomorrow, November 8, is Election Day and little "d" democracy is on the line.**

New Rural Project has been working tirelessly in our focus counties up and down Highway 74 between Union County and Robeson County informing and encouraging rural voters to cast their ballots. We've held Candidate Forums and provided educational election materials through our canvassers, community events and social media. Via our six-day-a-week canvass program staffed by local folks, we have had thousands of conversations with infrequent rural voters of color.

Democracy lives when our large diverse citizenry engages and votes. [Join us tomorrow on Election Day by making sure you vote and ensuring that at least three of your friends and family members vote, too.](#) Ask yourself, "What am I doing to help protect everyone's right to vote?" Can you take someone to the polls? Can you make phone calls to get folks out to vote? Maintaining our democracy depends on ALL OF US.

When we established the New Rural Project, it was with an eye on long-term change that comes about both through the ballot box and through relationships and community work. We will continue to work in these rural communities after Election Day (year-round, as we have been doing) to uplift the voices and needs of these communities.

In fellowship with you and our democracy,

The New Rural Project Team
