### Find Out What's Being Planned in Your Neighborhood

The **Development Near Me** tool is a new platform designed to streamline the way residents access and interact with development information. This innovative application provides an efficient, user-friendly way for residents to explore development projects within their vicinity and stay informed about new submissions.

An interactive web map viewer allows residents to easily review development information from a single location. By simply inputting an address, users gain access to a

wealth of information, including ongoing development and pending, approved and completed projects.

To experience the new tool and access how to use resources, visit the [Development Near Me webpage](#). "This tool represents our commitment to ensuring our community remains informed and engaged in the development processes that shape our city," said Alyson Craig, Planning director. "We understand the importance of transparent and accessible information, and our aim is to empower residents by providing them with an intuitive tool to stay informed about the development activities in their neighborhoods."

*An informed community is an empowered community!* I very much want to continue the work I have started as your At-Large City Councilwoman. I humbly ask for your vote in the 2023 municipal election.
