December 2023

Sol Nation Inc. Partners With CleanAire NC!

After a year of frequently finding CleanAIRE NC in the same social and financial circles, it naturally led us to consider a more purposeful collaboration.

In order to create the type of environmental and climate justice impacts we need to see in our communities, we are going to have to collaborate. And, when I say collaborate, I am speaking of doing it in a way that is intentional, measurable, and accountable to the community we are serving. I am excited to announce that Sol Nation has officially partnered with CleanAire NC to have significant environmental justice impacts on the Historic West End all the way to eastern North Carolina. Jeff Robbins, Executive Director of Clean Aire NC, and I, have spent a good portion of 2023 building a relationship with each other and between our organizations. We were constantly finding ourselves in the same circles in community and in the funding world, so it only made sense that we do something more intentional with each other.

Our ultimate goal is to help communities have a safe, clean community that they can live in. Our partnership has identified some specific events that we will co-produce, such as Charlotte Earth Day 2024 and specific issues such as air quality (CleanAire NC is a leader in this issue area), reducing and mitigating emissions, and community engagement, particularly in predominantly Black and brown communities.

I am excited to see how our partnership will impact our Charlotte community and beyond!

Tiffany Fant
Executive Director

Support Solutions That Matter Most To You!

Even though Giving Tuesday has passed there is still an opportunity to support Sol Nation by funding the solutions that matter most to you. You can watch each fundraiser's updates live and stay current with events as Sol Nation continues our vision of creating sustainable and regenerative BIPOC communities that will have access to environmental resources, education, power and infrastructure.

Climate of Parties 28 (COP 28)

Since November 28th, the world watched as tens of thousands of leaders gathered for the 28th UN Climate Change Conference (COP28) at Expo City in Dubai, UAE, which concluded December 12th. The primary goal is to negotiate agreements that will limit global warming to 1.5 degrees Celsius.

Shoutout to Our Grantors!

We want to say THANK YOU to all the grantors supporting Sol Nation Inc for the coming year. Your generosity means that you support and agree with Sol Nations vision and mission. As we continue to work in communities that are directly impacted by environmental and social injustices we will find ways for them to live in healthy, vibrant communities because when community members are given some relief and resources they are able to create their own pathways to solutions.
