What One City's History Tells Us about America's Pressing Problem

By Tom Hanchett

Today, as communities across the US struggle with urgent shortages of affordable housing, policymakers and residents are asking how our present system of housing subsidies — both its strengths and weaknesses — came into being.

This book is the first to take a real-world case-study approach. It tracks the interplay of federal policies and local efforts in fast-growing Charlotte, NC. From the 1930s beginnings of public housing, to today's trust funds and tax credits — what gets built and why?
