Friend,

President Trump has been back in office for just over one month, and already we are seeing the consequences of his extreme agenda. From attempting to redefine birthright citizenship to bypassing Congress to freeze federal funds and eliminate entire agencies, his administration is aggressively challenging the laws that protect our democracy. And this is only the beginning.

Here in North Carolina, we must be prepared to stand up against these overreaches of power. The policies coming out of Washington will have a direct impact on our communities, our schools, and our rights. Trump's attacks on federal agencies mean fewer resources for our state. His radical foreign policy decisions could disrupt our economy, impacting North Carolina families who depend on international trade and military support.

We must act now. Our work in the North Carolina General Assembly has never been more important. While Trump and his allies push their agenda from the White House, we must fight back at the state level to protect our values, our democracy, and our future.

But we can't do this without your support. Your contribution today will help us push back against Trump's reckless policies and ensure that North Carolina remains a place where fairness, opportunity, and democracy prevail.

[Can you chip in \\$25 to support our fight?](#)

DONATE

Together, we can resist these dangerous policies and protect the future of North Carolina.

Thank you for standing with us.

Senator Joyce Waddell
