Now is the time to raise our voices and advance the work of progress.

With your passionate support, The Obama Foundation is building a future where every young person has the opportunity to thrive. Your contributions are the driving force behind life-changing programs that empower the next generation of leaders—thank you!

Transformative programs such as the Girls Opportunity Alliance and Obama Leaders will soon find a permanent home at the **Obama Presidential Center**, a global hub for change that will unite leaders from around the world to create a more equitable and just future.

Your support is already making this vision a reality, and we are deeply grateful for your commitment to this important work.

[Your new monthly commitment](#) will support the next Erin, Bethany, and Ziad:

The Girls Opportunity Alliance creates opportunities for girls to pursue their dreams through education and mentorship. Erin says it has opened doors and amplified the Black Girls Dance® mission to empower girls on stage, in leadership, and in life, beyond what she could have imagined.

The Leaders program supports public, private, and civil society changemakers committed to the common good. Bethany credits the program for equipping her with the tools and network she relies on to uplift and invest in her community as executive director of Ciudad Nueva Community Outreach, a faith-based nonprofit in El Paso, Texas.

Through the Leaders program, Ziad honed his leadership skills and built a network of changemakers—key to his mission of helping companies engage the next generation on climate change, mental health, and systemic inequities.

Your commitment now isn't just a gift, it's a powerful act of leadership. You'll join a community of recurring donors creating lasting change for the next generation of changemakers. We can do even more in 2025, and it starts with you.

Join us in empowering the next generation of changemakers to take on global challenges with inclusivity, collaboration, and hope. Your steady, ongoing support makes it possible.
