The MeckEd Monthly

Learn how we're preparing students to navigate life and achieve career success

*In just 30 days,*

*MeckEd will lose 68% of our budget.*

80% of the funding that fuels our mission to help young people launch the careers of their dreams comes from government. 68% is federal.

We're not losing funding because our students are falling behind—they're succeeding!

- 100% of our students graduated.
- 98% were enrolled, enlisted, or employed within 60 days of graduation.
- They earned over \$115,000 last year through MeckEd-supported paid internships.

This isn't a funding cut due to failure. It's a cut despite overwhelming success.

### Support Career Success

#### And yet, our students still need us:

They still need a cheerleader pushing them toward graduation.

They still need a trusted guide as they choose their path—college, career, or military.

They still need someone to believe in them when they feel unheard and unseen.

**We are still here. Still committed. Still believing.**

We're counting on the generosity of people who believe in our mission—people like YOU. Here's what your gift can do:

- \$75 gets a student a driver's license—opening the door to employment
- \$500 provides Employability Skills Certification for 20 students
- \$3,000 funds a college tour for 25 students
- \$10,000 supports 8-week paid internships for 5 students

Every dollar drives our work to break cycles of generational poverty and create opportunity where it's needed most.

We believe in you, just like you believe in us.

From the bottom of our hearts, THANK YOU for helping make a way.
