Friend,

This Veterans Day, we extend our deepest gratitude to the brave Americans who have proudly served our nation. As we also recognize National Veterans and Military Families Month, we honor these service members and the families who stand by their side with unwavering love and support. Their sacrifices and dedication inspire us all. It's our duty to come together as a community to ensure they receive the care, respect, and opportunities they deserve.

To do this, our gratitude must be matched by action. The NAACP is committed to fighting for the rights and well-being of all our veterans, particularly for equitable access to the support they need. We're calling on Congress to take immediate and decisive steps.

Our demands for America's veterans are clear:

- **Invest in veterans' care:** We demand long-term investment to modernize and expand the Department of Veterans Affairs' public healthcare system. Every veteran, regardless of race, income, or geography, deserves high-quality, comprehensive care.
- **Fully fund critical services:** We call upon Congress to enforce the full funding and staffing of the Veterans Crisis Line and other essential Veterans Affairs programs that are proven to save lives and improve health outcomes.
- **Strengthen community partnerships:** The NAACP will continue to partner with veterans' organizations and community advocates to protect the VA and amplify the voices of those who have served.

The promises made to our veterans must be kept. We must ensure that the systems designed to support them are **strong, accessible, and accountable.**

Keep Advancing,
