

For more than 30 years, West Boulevard Neighborhood Coalition (WBNC) has served as a voice of the West Blvd Corridor, bringing residents, elders, youth, and partners together to protect our legacy and shape a stronger future. We work to ensure that long-time neighbors benefit from the growth happening around us and that community priorities lead the way.

#### Our Vision

A safe, healthy, economically vibrant West Blvd Corridor where residents drive decisions, opportunities are shared, and community power is sustained for generations.

#### Our Role

We connect neighborhoods, coordinate partners, and advance community-led solutions in food access, economic mobility, youth opportunity, and equitable development.

City West Commons,  
1520 West Blvd, Suite J

# What We Do

This is our neighbourhood.

## Community Power & Advocacy

We organize residents, elevate community priorities, and work with city, county, and corporate partners to ensure West Blvd receives the investment, respect, and accountability it deserves.

## Neighborhood Revitalization & Housing Stability

We support safer streets, stronger housing, and community-led development that protects long-time residents and preserves the cultural identity of the corridor.

## Food Access & Community Ownership

A community-owned grocery store restoring food access after more than 35 years without one. The co-op builds local wealth, keeps dollars in the neighborhood, and provides fresh, affordable, culturally relevant food for West Blvd families.

## Youth Opportunity & Environmental Stewardship

Hands-on learning, leadership development, and environmental education that connect young people to agriculture, sustainability, and career pathways.

## Small Business Growth & Corridor Revitalization

A network of local entrepreneurs enhancing commerce in the West & Wilkinson corridor through marketing support, advocacy, workshops, and collaborative events. They provide training, coaching, and mini-grants to help minority-owned businesses grow and thrive.
